Subject: Star Point Permit Renewal
CC: Suzanne Steab

Hi Dennis,

It has come to our attention that the Star Point Permit is due to expire on January 28, 2012. R645-303-232.100 requires that an application for renewal be filed 120 days prior to expiration of the existing permit. If you intend on renewing the Star Point Permit the application would have been due on September 28, 2011. You should submit an application for permit renewal as soon as possible. Thank you.
