RE: Kaiser Steel Corporation  
Sunnyside Mines  
ACT/007/007

Dear John:

Enclosed is a copy of the Office of Surface Mining's comments on the icelander and coarse refuse pile ponds.

The Office of Surface Mining and the Division await Kaiser's plans on these structures. In the near future the Division personnel shall inspect the temporary sedimentation control, which at a minimum should consist of a straw bale filter, that was required by the Office of Surface Mining on the last joint inspection.

If you have any questions, please contact the Division.

Sincerely,

THOMAS J. SUCHOSKI  
RECLAMATION HYDROLOGIST
