RE: Sunnyside Mines
Kaiser Steel Corporation
ACT/007/005
Carbon County, Utah

Dear Mr. Crane:

The Division received the enclosed Revegetation Plan from Kaiser Steel on August 16, 1979 for its Sunnyside Mines. This plan has been reviewed and some modifications were suggested to Kaiser. They were 1. the use of some native grass species if available this fall, 2. the increase in rate per acre to 20 pounds of seed, 3. the rescheduling of seeding to take place in October and the planting of seedlings to be done in the spring in order to maximize success, and 4. the use of the handbroad-casting method of seeding.

This revegetation work is being done to abate the Office of Surface Mining Notice of Violation #3 issued on May 10, 1979 by Mr. Gary Fritz and the State violation notices #3 and #4 of April 13, 1979.

The Division now considers these violations abated.

Sincerely,

MARY ANN WRIGHT
RECLAMATION BIOLOGIST

MAW/te
