DIVISION OF  
OIL, GAS & MINING

Dear Mr. Huefner:

This letter is in regards to a previous approval (March 20, 1980) which was given for operation of a scrap metal and timber storage area at the Kaiser Steel Corporation Sunnyside Mine.

It was intended that the previous letter also give approval for the industrial waste disposal site located adjacent to the old tailings pond. Approval of this site, however, was inadvertently omitted from our letter.

The industrial waste disposal site is hereby approved on condition that it be operated in accordance with applicable rules and regulations which include the following provisions:

1. Open burning must be prohibited.
2. Surface and groundwater supplies must be protected.
3. Deposited material must be covered.
4. Materials defined as hazardous must be excluded from this site.

We apologize for any inconvenience that the omission in our previous letter may have caused. If we may be of further assistance, please feel free to contact this office.

Sincerely,

*Dale D. Parker*  
Dale D. Parker, Ph.D., Director  
Bureau of Solid Waste Management

Joe,

Has Kaiser gone ahead with the re-location of the storage area, etc? Do you see any problems?

Would you prepare a response of some kind for me if you think it's necessary. It is a bit late getting around. Thanks.

M. J. J. J.

6-5-80

Does anybody see any problems with Kaiser's proposal to clean up the present waste area & relocate it in #2 Canyon? (Besides lack of detailed plans)

Any problem concerning reveg. test plots, Mary Ann?

Yes, but I've already gone the rounds w/ him & he won't change the Route & Return to <sup>MA</sup> ~~MT~~

Need State Health ~~Dept~~ <sup>MA</sup> Approval, no.
