RE: Sunnyside Mine
Kaiser Steel Corporation
ACT/007/007

Dear Don:

Enclosed are seven copies of Kaiser Steel Corporation's sediment pond plans for the coarse refuse pile, the west berm outslope and the south berm outslope. The Division requests the Office of Surface Mining's review of these plans by the 30th of May.

Also included are the silo loadout facility drawings showing the correction of belting substituted for paneling along the roadway.

The February 19, 1980 Kaiser Steel cover letter indicates the manshaft area sediment pond drawings are included. These have been withheld pending additional information submitted by Kaiser Steel as requested by the Division. These will be forwarded at a time when all information is acceptable. Please call if you have any questions.

Sincerely,

THOMAS J. SUCHOSKI
ENGINEERING GEOLOGIST
