RE: Scrap Metal Storage Area  
Sunnyside Mine  
Kaiser Steel Corporation  
ACT/007/007

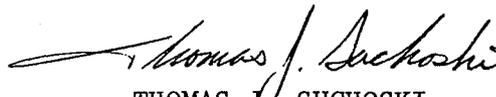

Dear Mr. Huefner:

The Division staff has reviewed Kaiser Steel Corporation's application for the scrap metal storage area at the Sunnyside Mine. It is felt that this application can be approved with the following stipulations:

1. That the boundaries of the scrap metal storage area be delineated on the ground either by berming or posting.
2. That the drainage from the scrap metal storage area be treated for sediment control such that the requirements and standards of the regulations are met.

I hope this is acceptable to you. If you have any questions, please do not hesitate to contact the Division.

Sincerely,

  
THOMAS J. SUCHOSKI  
ENGINEERING GEOLOGIST
