Mr. Lynn Kunzler  
Division of Oil, Gas, and Minerals  
1588 West North Temple  
Salt Lake City, Utah 84116

DIVISION OF  
OIL, GAS & MINING

Dear Lynn:

This is a formal request for a time extension until March 31, 1982, for the submission of the report on the Sunnyside baseline vegetation data. The original proposed submission per the time schedule in the permit application was January, 1982.

Other priorities have necessitated a delay in the report submission. However, the field work and data collation have been completed on schedule. As there have been no new disturbances and the old disturbed areas are pre-law, this short delay will neither affect the conclusions of the report nor result in any potential environmental consequence.

Sincerely,

*Marcia J. Wolfe*
