RECEIVED

AUG 10 1981

DIVISION OF  
OIL, GAS & MINING

Mr. Lynn Huntsman  
Kaiser Steel Company  
P.O. Box "D"  
Sunnyside, Utah 84539

Attention: John Huefner

Dear Lynn:

The Division has reviewed the support tower design that Kaiser Steel proposes to use for a 46 KV distribution feeder between the central metering station and the branch fuse disconnect station. The design represents a safe situation in relation to raptor electrocutions.

Thank you for your interest in the State's wildlife resource.

Sincerely,

John Livesay, Supervisor  
Southeastern Region
