RE: Transmission Line
Sunnyside Mine
ACT/007/007
Carbon County, Utah

Dear Mr. Huefner:

The Division is in receipt of your letter of August 4, 1981, responding to the stipulations for development of a 46-kv power line between the Central Metering Station and the Branch Fuse Disconnect Station in Whitmore Canyon. We have also received a copy of a letter from the Utah Division of Wildlife Resources stating that the power line design is safe for raptors.

Since all stipulations have been met in the above-mentioned documents, the transmission line is hereby approved as a minor modification to Kaiser Steel's Sunnyside interim mine plan.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF MINED
LAND DEVELOPMENT
