State of Utah  
Salt Lake City, Utah, 84114

Dear Sally;

Sorry to be so long in sending you this picture of the rail siding area proposed for Sunnyvale mines on Kaisers mine property at Sunnyvale Utah.

As I informed you regarding all fo the water drainage, this will be going into one of the settling ponds we are reclaiming at the present time.

I would appreciate it if you would send me a letter regarding your opinion on the permit to construct the rail spur at that location so we can proceed with our plans to build the rail spur.

Please mail correspondence to Jack Lawrence  
Star Rt. Box 16-B  
Bernalillo, N.M. 87004

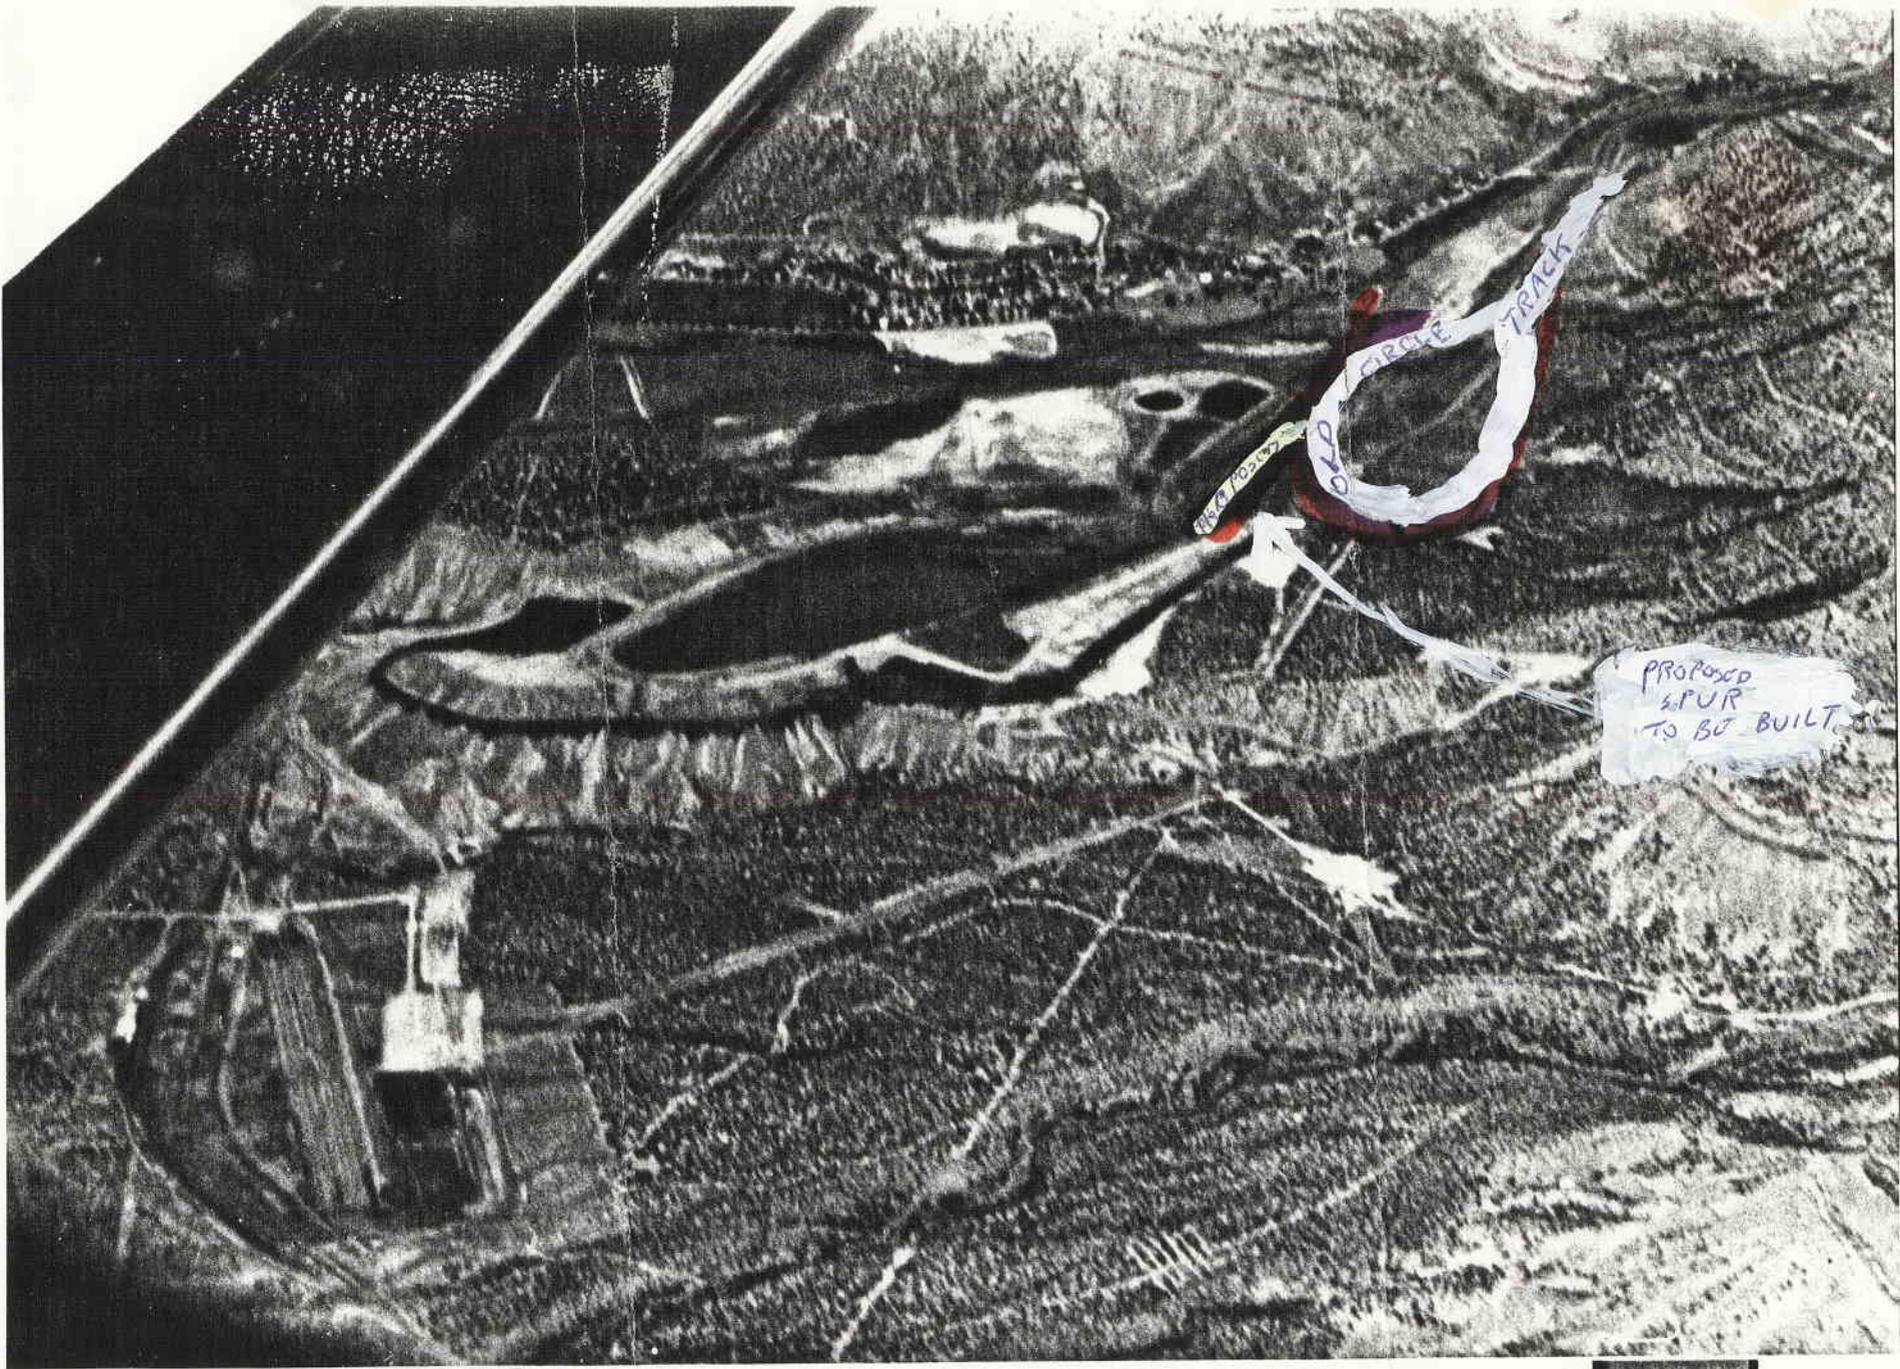

Sincerely; Jack A. Lawrence (Supervisor)  
Sunnyvale Mines.
