Memo to Coal File:

RE: Kaiser Steel Corporation
Sunnyside Mines
ACT/007/007
Carbon County, Utah

I had a telephone conversation with John Huefner on November 5, 1982 and informed him of the Division of Water Rights approval of his manshaft discharge pond and that he would receive the letter sometime next week.

We also discussed his plans in regards to the manshaft sediment pond and the coarse refuse sediment pond. His reply indicated that he was going to submit more information on the sediment pond design changes at manshaft shortly, but was not going to submit design plans in regards to the coarse refuse pond in the near future. He was only going to possibly clean out the existing pond at the coarse refuse location.
