Dear Dr. Neilson:

Re: Construction on Water Pipe Line Right of Way
Sunnyside Mines, ACT/007/007, Carbon County,
Utah

In an effort to keep the Division informed of all new non-coal mining activities taking place in the Permit Area, we are now informing you that the City of East Carbon is planning to replace several thousand feet of water pipe line in a right-of-way that crosses the Sunnyside Mines Permit Area (see Plate III-16 of the permit application for location). This replacement is part of a general upgrade of the city water system.

Sincerely yours,

Douglas C. Pearce
Mine Engineer
