Re: Invoice #7 for ACR, DOC and TA for Sunnyside Mine, Utah  
(Our Job #UT-DOGM-01)

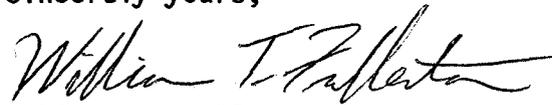

Dear Steve:

Please find enclosed Invoice No. 7 for the above-referenced project. The invoice covers the period from February 1 thru February 29, 1984.

Based on details of a conversation Debbie Richardson had with Mary Boucek in Salt Lake City on March 2, and the telephone conversation you had with me on March 5, it is SLA's understanding that our responsibility on the TA will be over after we submit the revised TA. The revised TA will be based on the discussion held at the TA presentation meeting in Salt Lake City and the additional information Kaiser submitted to DOGM on March 2, 1984. SLA and its consultants will not be responsible for modifying the TA to include the AVF and geotechnical stability information which Kaiser Steel will submit at a later date.

If you have any questions concerning the invoice or the project, do not hesitate to contact us.

Sincerely yours,

William T. Fullerton  
Senior Hydraulic Engineer

Ruh-Ming Li
