RE: Small Area Exemptions at Kaiser Steel (Sunnyside)

It has been brought to my attention during my last complete inspection at Kaiser Steel's Sunnyside Mine that the small area exemptions under consideration are still under consideration.

With the TA coming due, it is a matter of utmost importance that this matter be resolved. If this area of concern is not addressed, it could lead to enforcement problems, NOV abatement modifications and an additional work load that the permitting staff can ill afford.

This problem has been pending for quite sometime and a speedy conclusion is urgently requested.
