Inspection Memo
to Coal File:

RE: Kaiser Steel Corporation
Sunnyside Mines
ACT/007/007, Folder No. 7
Carbon County, Utah

A follow-up inspection was conducted by Barton Kale of the Division on April 25, 1984 at the above-mentioned minesite. The purpose of the inspection was to look at berm construction which was in abatement to NOV N84-6-4-1.

After checking in at the engineering office, the inspector proceeded unescorted to the site of the violation. The berm was reconstructed and contaminated material was removed from the drainage. The NOV will be terminated effective today.

Barton Kale *Barton D. Kale*
Mining Field Specialist
