Mr. Dee C. Hansen
State Engineer
Division of Water Rights
1636 West North Temple
Salt Lake City, Utah 84116

Dear Mr. Hansen:

RE: Supplemental Information on 001 Discharge Pond, Kaiser Steel Corporation, Sunnyside Mines, ACT/007/007, #3, Carbon County, Utah

Enclosed please find one (1) copy of Kaiser Steel Corporation's supplemental information on the 001 Discharge Pond for their Sunnyside Mines. The Division is forwarding this copy to update your files and current MRP copy.

This letter regarding the outlet protection of the Twin Shafts Mine Water Discharge Pond should be inserted behind the calculations in text (Book 2, Index 11) or attached to Plate #314.

Any comments or questions pertaining to this information, please call me or D. Wayne Hedberg of the Division staff.

Sincerely,

Thomas Munson for

James W. Smith, Jr.

Re: 001 Discharge Pond
ACT/007/007

Dear Tom:

This letter is to confirm our agreement with the changes in the 001 discharge pond erosion protection plan that we discussed over the phone two weeks ago.

Brattice will be used as a channel line below the discharge to Grassy Trail Creek. Rock will be placed over the liner for energy breaks and as light protection. The liner and rock will provide permanent erosion protection for the discharge.

Sincerely,

Douglas C. Pearce
Mine Engineer
