RE: NOV #2 of 2, N84-2-6-2  
Price River Complex  
ACT/007/007, #3 and #7  
Carbon County, Utah

Dear Mr. Wiley:

Since the Office of Surface Mining (OSM)/Division of Oil, Gas and Mining (DOGM) review of the emergency spillway designs submitted on May 8, 1984 is taking so long, even though Price River Coal Company (PRCC) has made timely submittals of the information in abatement of Notice of Violation (NOV) #2 of 2, N84-2-8-2, I am enclosing a termination notice effective May 8, 1984. Once OSM/DOGM approval of the spillways is finally obtained, PRCC should be contacted for their concurrence and commitment to a schedule for completion of the spillways as designed. If PRCC fails to cooperate during the remaining review of plans for the emergency spillways or fails to complete construction of the spillways by the deadline set in the approval, additional enforcement action will be warranted.

Sincerely,

A handwritten signature in black ink, appearing to read 'Sandy Pruitt', written over a large, loopy flourish.

Sandy Pruitt  
Mining Field Specialist
