RE: Draft Technical Analysis and  
Decision Document  
Kaiser Steel Corporation  
Sunnyside Mine  
ACT/007/007, Folder No. 2  
Carbon County, Utah

Dear Mr. Klein:

The Division of Oil, Gas and Mining has completed a Draft Technical Analysis (TA) and Decision Document for Kaiser Steel Corporation's Sunnyside Mine. A copy of the document is enclosed for your review and comment. As you will note, the DTA contains a number of draft stipulations which will be addressed by the Company prior to the Final TA and Decision Document. A meeting will ensue between the Division's technical staff, the reviewing contractor and Kaiser Steel Corp. in the near future during which the draft stipulations and the Company's responses will be discussed and/or clarified. Shortly thereafter, the Company will submit their formal response to the draft stipulations for Division and contractor review. At that time, it is anticipated that most, if not all, of the stipulations will have been adequately addressed, thus enabling the Division to proceed into the Final Technical Analysis phase with a minimum of stipulations.

Your staff's prompt review of the enclosed document and submittal of comments to the Division, prior to the Final TA deadline in March, 1984 will allow us to stay on schedule for Final Permit Approval of this mine plan by early spring 1984.

Please contact myself or Mary Boucek of my staff with further questions.

Sincerely,

James W. Smith, Jr.  
Coordinator of Mined  
Land Development
