Salt Lake City, Utah 84180-1203

Dear Mr. Lof:

Re: Abatement of NOV. 84-4-17-3, 2 of 3

Work to correct the ditch problem has been conducted where possible to meet the extended May 1, 1985, abatement deadline. Approximately one-half of the ditch has been cleaned to date. The remainder of the ditch is too wet to allow the use of machinery at this time. All remaining areas of the ditch that could overflow have been cleaned by hand. Final sizing of the ditch to design specifications will take place as soon as ground conditions allow. We respectfully request that the abatement deadline be extended to June 21, 1985.

Sincerely yours,

Douglas C. Pearce
Mine Engineer
