Re: Vegetation Baseline Data

Dear Lowell:

Per our conversation today, enclosed is a copy of the vegetation baseline section for the Kaiser Coal Corporation, (Kaiser) Sunnyside No. 5 Mine permit application. We have also enclosed the exhibits and maps associated with this section.

Please review this information and provide your comments to Mr. Martin P. Holmes of Kaiser or to me at your earliest convenience.

We appreciate the Division of Oil, Gas, and Mining providing early review of the vegetation section. It is important to the overall approval schedule for the No. 5 Mine Permit that all required baseline data be collected during the 1986 field season. Therefore, we need to know as quickly as possible if there are any potential deficiencies in the vegetation data so that any additional field work which may be required can be completed.

If you have any questions or if I can be of further assistance, please do not hesitate to call.

Sincerely,

ACZ INC.
