DIVISION OF
OIL, GAS & MINING

RE: Kaiser Coal Corporation, Sunnyside No. 5 Proposed Permit
Area, Carbon County, Utah

Dear John:

During our telephone conversation earlier this week you requested that we send you certain information for review by you and your staff prior to our meeting scheduled for May 6 at 1:30 P.M. This meeting has been arranged for the purpose of reviewing with you our plans and methodologies for the upcoming seep and spring survey and surface water sampling work in the Sunnyside No. proposed permit area. The information that you requested is enclosed and is as follows:

- 1) a map showing the locations of seeps and springs observed during our Fall, 1985 survey and tentative surface water sampling sites;
- 2) a table summarizing the results of last fall's seep and spring survey;
- 3) a report summarizing available geologic and hydrologic data that also discusses methodologies for gathering additional data;
- 4) the results of laboratory analyses on samples taken from selected springs last fall.

We hope this information will be sufficient to meet your needs. Please call either myself or Brian Buck if you have any questions regarding this matter.

Sincerely,

A handwritten signature in cursive script that reads 'Bob'.

Robert J. Bayer
Vice President
