Dear Dr. Nielson:

The Office of Surface Mining Reclamation and Enforcement (OSMRE), Western Field Operations (WFO), has received the December 15, 1986, Kaiser Coal Corporation's submittal of amendment to the approved mine reclamation plan of Utah permit No. ACT/007/007 for the Sunnyside coal mine. The amendment is for addition of NPDES discharge point 015 to the water monitoring system. OSMRE reviewed this submittal and has determined that it does not constitute a modification to the approved mining plan under 30 CFR 746.18. Based on our review of the submittal, OSMRE concurs with the Division of Oil, Gas and Mining's (DOGM's) decision to approve the submittal as indicated in DOGM's letter dated March 10, 1987, and the Federal permit UT-014, dated January, 1986, is revised accordingly.

If you have any questions, please contact David Costain or Richard Holbrook at (303) 844-2451.

Sincerely,

Peter A. Rutledge, Chief
Division of Federal Programs
