Re: Coarse Refuse Toe Pond
Sunnyside Mines
ACT/007/007

Dear Mr. Braxton:

In response to Mr. John Whitehead's letter of January 5, 1987, Kaiser Coal commits to the stipulations contained therein - namely that the splash basin depth is properly 1.5 feet, that the alternative borrow area will be permanently reclaimed by December 31, 1988, if it is used and not covered by an expanded coarse refuse pile, and that construction of the subject pond will be completed by June 1, 1987.

At least twelve copies of the approved plan will be submitted by February 27, 1987. The cooperation of the Division on this plan is very much appreciated.

Sincerely,

Carl W. Winters
Senior Mining Engineer
