Act/007/007  
#5

February 18, 1987

TO: File

FROM: Pamela Grubaugh-Littig, Reclamation Engineer *pgl*

RE: Wyoming Self-Bonding, Kaiser Coal Corporation,  
ACT/007/007, Carbon County, Utah

I spoke with Vickie Bryant, Bonding Specialist for the Wyoming Department of Environmental Quality, on February 18, 1987 about the self-bonding rules.

Operators are required to demonstrate how they qualify by submitting the updated financial information and the operator determines the ratios for qualification. Vickie Bryant checks the figures. Updated financial information must be sent annually with the annual report. The self-bonding regulations are identical to those presented in the Federal Regulations, except they require five previous annual reports, which the Division also requires.
