Dear Mr. Winters:

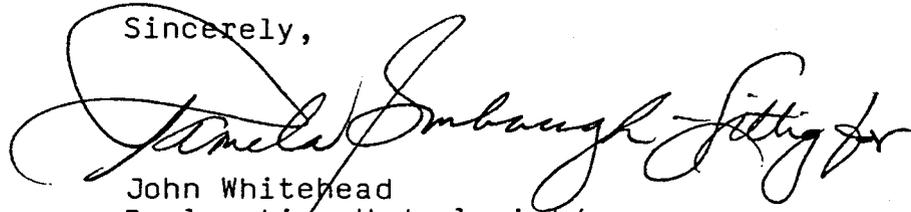

Re: Diversion Ditch Repair, Sunnyside Mine, ACT/007/007-87C,
Folder #2, Carbon County, Utah

This letter is in response to your letter of February 17, 1987 requesting assistance on the design of the diversion ditch adjacent to the main parking lot and building area.

Your letter notes that due to Kaiser's staffing situation, fully qualified personnel are not available to do the design work on this ditch. Unfortunately, the Division will not be able to do the design work outright for Kaiser as you requested, because to do so, would establish a precedent which the Division is not staffed nor mandated to do.

The Division will continue to provide Kaiser with technical assistance, on any other matter we are required and able to do, but we cannot actually do the design work for an operator.

Sincerely,

John Whitehead
Reclamation Hydrologist/
Permit Supervisor
