Dear Mr. Winters:

Re: Final Approval of MRP Amendment, Temporary Reclamation Seed Mix, Interim Stabilization, Kaiser Coal Corporation, Sunnyside Mines, ACT/007/007-87A, Folder #3, Carbon County, Utah

The Division has completed its review of the above referenced Mining and Reclamation Plan Amendment received January 14, 1987. This submission was provided in response to the Division's November 17, 1986 letter to Martin P. Holmes which presented our position and recommendations on temporary revegetation at Kaiser Coal Company's mining operations.

The information and revised pages for incorporating into the approved mining and reclamation plan (MRP) were reviewed by Kathy Mutz, Reclamation Biologist. The changes are technically adequate and final approval is hereby granted for this permit change. Thank you for your patience and cooperation in completing this permitting activity. Please call me or Kathy Mutz should you have remaining questions or concerns with this approval.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor/  
Reclamation Hydrologist
