Salt Lake City, Utah 84180-1203

Re: Sunnyside No. 5 Permit  
ACT/007/007  
Folder No. 2

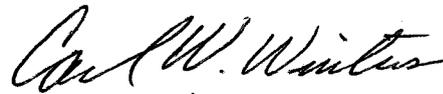

Dear Mr. May:

Mr. C. W. McGlothlin, on October 20 of last year, requested that the Division allow Kaiser Coal until April 30, 1988, to respond to the Division's Initial Completeness Review of the permit application for the Sunnyside No. 5 Mine. Such a response was predicated upon a successful sale of the Sunnyside properties. Although a sales agreement was reached with Basic Manufacturing and Technologies of Utah, no sale has been consummated and none appears likely at this time. Even so, Kaiser believes that the No. 5 Mine can and will be developed in the relatively near future.

Kaiser Coal is in the process of reviewing its position with the Sunnyside properties and expects to complete this process during May. As we discussed yesterday, Kaiser requests the Division allow additional time to respond to the ICR and suggests that Kaiser will provide the Division a notice of its intent as pertains to response to the ICR by May 31, 1988.

The Division's cooperation in this matter will be very much appreciated.

Sincerely,

Carl W. Winters  
Manager of Engineering
