RE: Mid Terms, Mid Terms, and More Mid Terms - Utah Power and Light Company, Deer Creek Mine, ACT/015/018; Des Bee Dove, ACT/015/017; Co-op Mining Company, Bear Canyon Mine, ACT/015/025; and Kaiser Coal Corporation, Sunnyside Mine, ACT/007/007, Folder #2, Carbon and Emery Counties, Utah

We have recently received responses to the mid term review letters compiled several weeks ago for Utah Power and Light Company's (UP&L) Deer Creek and Des Bee Dove Mines, and Kaiser Coal Corporation's (Kaiser) Sunnyside Mines. In addition, the recompiled Co-op Mining Company's (Co-Op) Bear Canyon Mine PAP has come in so that the mid term can be initiated. In an attempt to make this onslaught somewhat more clear the following dates and details are provided.

UP&L-DEER CREEK (DUE 8-10-88)

UP&L's response to our letter of April 22, 1988 will be in Rick Smith's office. Please review the responses to your comments. Please note any remaining deficiencies in a tech memo to me by August 10, 1988. If all of your comments have been appropriately addressed, please write me a note to that affect.

CO-OP-BEAR CANYON (DUE 8-10-88)

The recompiled and edited copy of the Bear Canyon PAP has been submitted by Co-op. This copy will be in Dan Duce's old office under the watchcare of Rick Smith (acting co-lead). We need to review the recompiled PAP as the initial part of the Bear Canyon mid term. The chapter assignments are as follows:

Page 2
Memo to A Team Members
July 18, 1988

Chapters 1, 2, 3*, 4, 5, 6
Chapters 3, 11
Chapters 3, 8, 9, 10

Rick Smith
Pam Grubaugh-Littig
Brent Stettler (with
help from James L. on
chapter 8)
Tom Munson

Chapters 3, 7

* All disciplines should look at chapter 3 to assess operations and reclamation as it relates to their discipline.

1. Review PAP to assess that all commitments in the previous copy are retained in the recompiled version.
2. Assure that all the appropriate editorial changes and deletions have been made to allow the plan to be modified by federal acreage lease additions and resulting federal agency scrutiny.
3. Compile tech memos to me by August 10, 1988 detailing deficiencies and corrections needed.

UP&L-DES BEE DOVE (DUE 8-17-88)

UP&L's response to our letter of April 20, 1988 will be in Tom Munson's office. Please review the responses to your comments. Please note any remaining deficiencies in a tech memo to me by August 17, 1988. If all of your comments have been appropriately addressed, please write me a note to that affect.

KAISER-SUNNYSIDE (DUE 8-17-88)

Kaiser's response to our letter of May 31, 1988 will be in Jim Fricke's office. Please review the responses to your comments. Please note any remaining deficiencies in a tech memo to me by August 17, 1988. If all of your comments have been appropriately addressed, please write me a note to that affect.

Thanks for your perseverance in this. Please feel free to see me if you have questions.
