RE: Site Visit, Kaiser Coal Corporation, Sunnyside Mines,  
ACT/007/007, Folder #2, Carbon County, Utah

I met Roy Benson at the Sunnyside mine site on March 16, 1988 because he wanted to review his approach to the bond estimate with me. His approach will entail more detailed production and performance machinery estimates. I told him that the detailed performance and production breakdown of reclamation costs is acceptable if Rental Rate Bluebook rates are used.

We also toured the mine site.
