This letter is in response to your July 29, 1988 letter notifying the Division of the temporary cessation of the Sunnyside Mines.

1. The exact number of surface acres and the extent of subsurface disturbance (workings) in the permit area prior to cessation of operations (a current workings map and current surface facilities map will suffice for this information).
2. The extent and kind of reclamation of the surface disturbed areas that has been accomplished to date.
3. Identification of any backfilling, regrading, revegetation, environmental monitoring, closure of underground openings, and water treatment activities that will continue during the cessation.
