Mr. William Balaz
General Mine Manager
Kaiser Coal Corporation
P. O. Box 10
Sunnyside, Utah 84539

Dear Mr. Balaz:

Re: Conditional Approval, PAP Amendment, Borrow Area Sediment Pond, Kaiser Coal Corporation, Sunnyside Mine, ACT/007/007-88D, Folder No. 2, Carbon County, Utah

This letter supersedes the August 15, 1988 correspondence regarding deficiencies identified in the Kaiser submittal for the borrow area sediment pond. This letter constitutes conditional approval so that Kaiser may proceed with construction of this pond, with the following conditions, which must be responded to.

1. The emergency spillway crest must be 1 foot above the primary spillway crest. Please modify Section D-D on Drawing D4-0166 to reflect this.
2. All ditch depths must be increased to 1 foot to allow for .3 feet of freeboard requirement.
3. A specific riprap size and gradation must be supplied for the riprap plan for splash basins and the chute spillway (Division recommends using a wet grout on all riprap locations).

Mr. William Balaz
ACT/007/007
August 23, 1988

Kaiser must respond to these conditions no later than September 30, 1988. Actual construction of the pond should be initiated immediately to assure the pond is completed no later than September 30, 1988. Please feel free to contact me if you should have questions on this matter.

Sincerely,

John J. Whitehead
Permit Supervisor/
Reclamation Hydrologist
