Mr. Barry G. Grosely  
Mine Engineer  
Kaiser Coal Corporation  
P. O. Box 10  
Sunnyside, Utah 84539

Dear Mr. Grosely:

Re: Certification Requirements for Sediment Ponds, Class I Haul Roads, Coal Waste Ponds and Impoundments, Kaiser Coal Corporation, Sunnyside Mines, ACT/007/007, Folder #2, Emery County, Utah

Division certification of the above types of structures is being scrutinized by federal inspections, and the enclosed policy is designed to provide consistent certification reporting statewide. I have asked Bill Malencik, Reclamation Specialist/Inspector, to review your present certification reporting for these structures with you, and to discuss completion of the requisite reports, where necessary.

If remedial action is required to bring your certification reporting into compliance with the regulations, you should take the requisite steps prior to the next state inspection. Thank you for your cooperation.

Sincerely,

Lowell P. Braxton  
Administrator  
Mineral Resource Development  
and Reclamation Program
