Permit Supervisor
Division of Oil, Gas & Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Pamela:

Re: Test Wells For Culinary Water

For your information, SRS is in the process of drilling two test wells, DH 90-1 and DH 90-2. The purpose of these test wells is to provide culinary water to East Carbon and Sunnyside Cities. The appropriate rules and regulations are being followed in coordination with the Division of Water Rights.

After the drilling and test pumping is completed, further engineering studies will be done to determine water quality and the potential for additional wells.

These wells may help to dewater some of the mine shafts, thereby decreasing inflow into the mine.

Sincerely,

Karl R. Houskeeper
Environmental Coordinator
