Dear Pam:

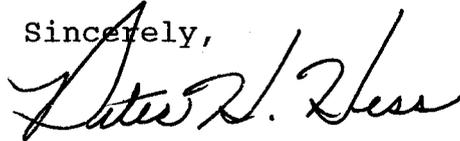

Re: NOV N92-32-17-1, Violation 1 of 1, Failure
to Maintain Diversions (Culverts)

With regard to your letter of April 14, 1993, to Mr. Joe Fielder, Mine Manager of Sunnyside Coal Company, Sunnyside Coal Company has completed the rough-grade requirements for the Fan Canyon BTCA Area.

Sunnyside Coal Company feels that sufficient work has been accomplished so that the culvert need not be installed as required by your letter. Please see SCC Permit, Plate 5-5, Drawing Number A5-0110. As we have previously indicated, this culvert (the one which was to drain the substation pad) was never installed; although, it was indicated on the drawing.

We look forward to hearing from you on this matter. Thank you.

Sincerely,

Peter H. Hess
Environmental Coordinator

Sunnyside, Utah 84539

Dear Mr. Fielder:

Re: Amendment to Remove Never-Installed Culverts from Surface Facilities Plans, NOV #N92-32-17-1, Sunnyside Coal Company, Sunnyside Mine, ACT/007/007-93C, Folder #3, Carbon County, Utah

This amendment is approved with the condition that the area must be reclaimed by November 1, 1993. If reclamation is not completed by that time, the culverts will have to be installed by November 30, 1993.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
