#5

Dear Pam:

Re: NOV 93-030-370-005

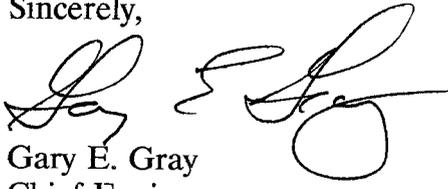

Act/002/002 #3
EJH

Attached are revisions in the calculations of sediment loads for the Central Metering Station and the Twin Shafts Mine Water Pond Topsoil Pile. These revisions show reduced loads compared to the original calculations; however, the technical review would have discovered the errors.

A copy of Mike Elder's letter is enclosed for your information. The pages attached to it should be replaced in the permit amendment, which you have for review.

Please call if you have any questions.

Sincerely,

Gary E. Gray
Chief Engineer
