Re: Aerial Surveys for Disturbed Area Maps and Bond Review, Sunnyside Coal Company, Sunnyside Mine, ACT/007/007, Folder #2, Carbon County, Utah

Dear Mr. Fielder:

In discussions with Mr. Gary Gray, I have reiterated the fact that the submittal of the disturbed area maps for the Sunnyside Mine, based on the recent aerial surveys, will be the basis for the bond review and may require further changes to the mining and reclamation plan. As I told Mr. Gray, it is still necessary to submit information in the format of the approved plan. However, he has indicated that he is also preparing the information in the format of the "reformatted" application which, has still not been submitted in its entirety. Upon submittal of the complete reformatted application, that document will be reviewed by the technical staff.

If you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Grubaugh-Littig".

Pamela Grubaugh-Littig
Permit Supervisor
