Re: Hoist House Pond As-built

*copy to ACT/007/007 #5
and NOT file*

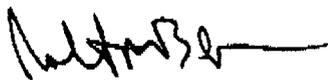

Dear Joe,

As you are aware, Sunnyside Coal Company was forced to seek relief through Chapter 11 of the United States Bankruptcy Code on March 25, 1994. Because of this filing, the construction of the Hoist Pond has not proceeded as originally expected. The pond is built and on-line. However, the as-built drawing due May 11, 1994, is yet to be completed.

I am requesting that the Division be lenient regarding the filing of the as-built drawing by allowing an extension to complete the work. The pond is scheduled to be surveyed in the next several weeks. The as-built drawing is to be completed by JME Companies. It is currently expected that the drawing can be submitted in about 6 weeks.

Thank you for your understanding and cooperation in this matter.

Sincerely,

Robert M. Burnham
President

Randy

I apologize for the previous spelling of your last name - I copied the spelling from an Sunnyside internal memo and it was wrong.

This is to confirm that Sunnyside Mine has prepared and sent a fax requesting an extension for completion of the as-built drawing for the #3 Hoist House Pond.

Please let me know if this has not happened.

Mike Elder
