Dear Pam:

Re: Permit Amendment, Re-Routing Of UPDES #015,
Twin Tanks Overflow

94B
ACT/607/007 #2

Copy to
amendment
file

Sunnyside Coal Company is submitting the following permit amendment for your review and approval.

This amendment is necessitated by the actions deemed necessary by Sunnyside Coal Company to come into compliance with all parameters of UPDES Permit No. UT0022942. Sunnyside Coal Company received a UPDES violation for low dissolved oxygen and high total suspended solids on November 15, 1993.

The installation of this new discharge line as the remedial action necessary to correct the above-noted TSS exceedance has been approved by the State of Utah, Division of Water Quality.

Should you have any questions, please call. Thank you.

Sincerely,

Pete Hess
Environmental Coordinator
