Re: Hoist House Pond Redesign

On November 22, 1993, an amendment to Sunnyside Coal Company's Permit ACT/007/007 was submitted for the redesign of the Hoist House Sediment Pond due to Violation N93-32-3-8 (2 of 8). The review of the submittal showed a deficiency in that the spillway capacity for a 25-year 6-hour peak flow was inadequate.

Enclosed please find corrected pages for the amendment submittal and a new drawing. These should correct the amendment application allowing approval of the pond redesign.

Please call if you have any questions.

Sincerely,

Gary E. Gray
Chief Engineer
