Re: Sunnyside Mine Reclamation

Dear Jim,

I am writing to urge you to give serious consideration to the proposal presented to the Division by Rio Lobo, L.C. I have reviewed this proposal and feel that it offers a "win-win" solution for all parties involved in this matter. The principals of Rio Lobo are of long acquaintance with me. I have every confidence that in their ability to carry out this proposal. Further, I believe they are fully sincere in their intent. The funding strategy will allow for the required reclamation. The Bankruptcy Court will obtain needed relief for the the creditors. This proposal will secure needed water and resources for East Carbon City. Most importantly, there are several major scale industrial programs that will be facilitated providing desperately needed jobs to this depressed area. DOGM retains a secure position and protects itself from litigation.

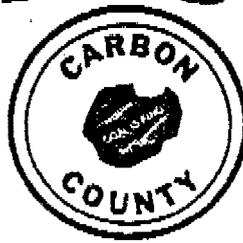

This is one of the best thought out proposals I have seen. There are few projects that benefit the environment, the local governments and the local economy. Please give this proposal your most favorable review.

Sincerely yours,

Mike Dmitrich,
Utah State Senate, District 27
