RE: Rerouted Drainage, Whitmore B.T.C.A. Area, Sunnyside Coal Company, Sunnyside Mines, ACT/007/007, Folder #5, Carbon County, Utah

Please find enclosed a revised Plate III-33 (2 of 12), Drawing A5-0109 which shows the drainage, as it is now routed, as of July 10, 1996. The 18 inch culvert under the Carbon County road has been blocked off, and the drainage has been coursed along the east side of the road to the Pole Canyon drainage. Treatment for this area was installed by Division personnel on July 17, 1996.

Please have this information inserted into the SLC Division copy of the Sunnyside mining and reclamation plan. Thank you.
