Inspection Report

Permit Number:	C0070007
Inspection Type:	COMPLETE
Inspection Date:	Thursday, July 16, 2020
Start Date/Time:	7/16/2020 8:00:00 AM
End Date/Time:	7/16/2020 10:30:00 AM
Last Inspection:	Thursday, July 30, 2020

Representatives Present During the Inspection:	
OGM	Steve Christensen
OGM	Steve Demczak

Inspector: Steve Demczak
 Weather: Sunny, 70's, Dry Conditions
 InspectionID Report Number: 6721
 Accepted by: SCHRISTE
 8/4/2020

Permitee: **SUNNYSIDE COAL CO**
 Operator: **SUNNYSIDE COAL CO**
 Site: **SUNNYSIDE MINE**
 Address: ,
 County: **CARBON**
 Permit Type: **PERMANENT COAL PROGRAM**
 Permit Status: **RECLAIMED**

Current Acreages		Mineral Ownership	Types of Operations
287.40	Total Permitted	<input checked="" type="checkbox"/> Federal	<input type="checkbox"/> Underground

	Phase III	<input type="checkbox"/> Other	<input type="checkbox"/> Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

Steve Christensen and I conducted inspection at the Sunnyside Mine. It is my opinion, the Division of Oil, Gas, and Mining should release jurisdiction of the Sunnyside Mine. The reclamation area is well vegetated with a diversity of plant life. There is no sign of sediment leaving the mine site. There are no major erosions rills. I could only find a couple of minor erosions rills of 1 to 2 inch deep. I could not find any offsite impacts at the Sunnyside Mine area, which the Division reclaimed.

I recommend that jurisdiction of Sunnyside Coal, C/0070007 should be released by the Division of Oil, Gas and Mining. A letter to the landowner Penta Creeks L.L.C., 140 South Newton, Albert Lea MN 56007 stating that jurisdiction is released will need to be written.

Stephen J. Demczak

Inspector's Signature:

Date Monday, July 20, 2020

Steve Demczak,
 Inspector ID Number: 39

REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
 - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Divison Orders, and amendments.

1. Permits, Change, Transfer, Renewal, Sale

The trustee request Sunnyside Coal- Order re sale of Footprint Property to Penta Creek L.L.C. at the Court Motion on May 21, 1998. Footprint Property is the location of the Sunnyside mine. A portion of the buildings and property will be kept and used by COVOL as a third party "Beneficiary". COVOL had a five (5) year rental contract with Penta Creek. In the May 21, 1998 Court Motion, on page 3, Section 5c states the following: "Specifically, COVOL with regard to the hole in the upper bridge over Grassy Trail Creek, COVOL, for itself and its successors and assigns, agrees that it shall by said deadline repair, gate or otherwise secure said hole so it will not pose a hazard to the public". COVOL has blocked the bridge from vehicle access, but, not for foot traffic. The public can walk on the bridge.

3. Topsoil

All topsoil was use in reclamation.

4.c Hydrologic Balance: Other Sediment Control Measures

The area is pocked. I did not see any sediment going off site.

8. Noncoal Waste

The reclaim area was free of non-coal waste material.

9. Protection of Fish, Wildlife and Related Environmental Issues

Wildlife graze this area.

10. Slides and Other Damage

No slides or other damage was notice.

12. Backfilling And Grading

The reclamation area was backfill and graded.

13. Revegetation

The site is well vegetated.
