Summary Report of  
Inspection for Cultural Resources

BLM Use Only; Use Initials.

Case File No.

Report Acceptable Yes \_\_\_ No \_\_\_

Mitigation Acceptable Yes \_\_\_ No \_\_\_

Comments:

Project Name, Developer  
Pacific Gas & Electric Co. Cultural Resources Survey of Two Proposed Drill Pads (Units 8-3 and 10-3) and One Access Route in the Pine Canyon Locality of Carbon County, Utah (PGE-78-1) Township 13 South, Range 12 East, Sections 8 and 11

Institution Holding Antiquities  
NA. No collections were made.

4. Antiquities Permit No.  
78-Ut-014 (M-37)

Dates of Field Work  
September 1, 1978

Description of Examination Procedures  
An archeologist walked parallel and zigzag transects of the proposed drill pads and access road to be located within the areas indicated on the attached map. The survey areas were not previously flagged but were clearly defined by Albert Spensco of PGE to the archeologist in the field before he began the survey. (See attached sheet)

Description of Findings (Attach forms or detailed report, if appropriate)

No cultural resources were observed in the survey areas.

Actual/Potential National Register Properties Affected  
No National Register properties will be affected by construction activities in the survey areas.

Conclusions/Recommendations With compliance to the following stipulations, a cultural resources clearance can be recommended to Pacific Gas and Electric:  
1. All vehicular traffic, personnel movement, and construction be confined to the locations examined and to access roads leading into these locations; 2. all personnel refrain from collecting individual artifacts or from disturbing any cultural resources in the area; and 3. a qualified archeologist be consulted should cultural remains from subsurface deposits be exposed during construction work or if the need arises to relocate or otherwise alter the construction area.

Signature of Person in Direct Charge of Field Work  
*J.R. Hauck for Sam Kennette*

Signature of Title of Institutional Officer Responsible  
*J.R. Hauck*

PGE-78-1  
Report Summary  
9/8/78  
p. 2

2. (Continued) Ample survey areas were covered to allow flexibility in locating the drill pads, and were designated with pink flagging by the archeologist. The access route covered was approximately 50 meters wide.
