RE: Sage Point Dugout Canyon Mine
Stream Restoration

Dear Mary Ann:

Our meeting on September 3 was enjoyable and informative. It allowed us to obtain a better feeling about the reclamation procedures necessary to restore stream channels.

Per our discussion, Eureka Energy Company requests DOGM's official determination whether or not affected streams contain (at any time) an assemblage of two or more species of anthropods or molluscan animals (30 CFR 817.57(c); UMC 817.57(c)). We also need an official determination of stream buffer zone requirements.

Thank you for your assistance. Please call me if you have any questions (415-781-4211, X3703).
