During the next week, we will finalize the alluvial valley floor review for Eureka Energy and complete our review for Price River and Belina. We will also be starting the review of Gordon Creek No. 2, Huntington No. 4, and U.S. Fuels. Purpose of Call:

Mr. Temnikov stopped in to check on progress of the ACR for Sage Point / Dugout Canyon. I told him that it would go to the state by 4/24. We also talked about 3 specific problems: 1) AVF; 2) Confidentiality; and 3) 40-year permit request. Mr. Temnikov xeroxed a copy of the solicitors response regarding confidentiality and also a copy of the Wyoming guideline for AVF significance. The request for a longer permit term is still under review in Washington.
