Re: Reclamation of Blazon #3 Drill Hole, CEP/007/009,
Carbon County, Utah.

Dear Ms. Linner:

Please be informed of the following reclamation plans for the Blazon #3 drill site and constructed access road.

Mr. Jack Otani, owner of the area of concern, will reclaim the Blazon #3 drill site and drill road as soon as possible. Mr. Otani will use a large, track mounted backhoe which is capable of doing a quick and complete job. To restore the site and road, to as near original contour as possible, will take approximately one day. Topsoil will be redistributed over the area to the extent possible.

The entire site will be hand broadcast seeded with the appropriate seed mix, previously approved by the Division in the original "Notice of Intent", and then covered with a straw mulch. Seeding will be accomplished within the next several weeks following the earth work.

The Division will be notified following each phase of the reclamation work.

Please return the escrowed fine, as agreed by Ms. Barbara Roberts, to be used for reclamation purposes to: Mr. Lon Williams, Pleasant Valley Coal Partners, 370 East South Temple, Suite 100, Salt Lake City, Utah 84111.

Thank you for your help.

Sincerely,

Billy H. Green
