Dear Mr. Durrett:

Re: Approval, Mid Permit Term Review, Sage Point-Dugout Canyon Mine, PRO/007/009, Folder No. 2 and 4, Carbon County, Utah

The Division has reviewed the materials submitted December 9, 1986 in response to the Mid Permit Term Review process. The Division finds that approval can be given to the Mining and Reclamation Plan as updated, with Sunedco Coal Company's (Sunedco) adherence to the attached stipulation. At this time the Division would like to remind you that mining operations at the Sage Point-Dugout Canyon Mine must begin by June 5, 1987 (three years from the date of permit issuance) unless Sunedco requests, in writing, and the Division grants an extension as per UMC 786.25(b)(2).

Please feel free to contact Lowell Braxton or Susan Linner should you have questions.

Best regards,

Dianne R. Nielson
Director
