RE: Sediment Ponds  
U.S. Fuel  
King Mines  
ACT/007/011  
Carbon County, Utah

Dear Bob:

The Division staff has completed a review of the sediment pond plans for U.S. Fuel's Hiawatha operations in the middle fork, upper storage, and Hiawatha yards.

After obtaining the concurrence of the participating State agencies, the Division issues approval of the designs and plans for U.S. Fuel's sediment ponds.

This does not include approval of the Office of Surface Mining.

The Division would appreciate notification of the completion of all the ponds proposed for construction. At that time, members of the Division staff will visit the site to inspect the ponds.

If you have any questions please contact the Division.

Sincerely,

RONALD W. DANIELS  
COORDINATOR OF MINED LAND DEVELOPMENT
