Mr. Robert Eccli
Mining Engineer
U.S. Fuel Company
Hiawatha, Utah 84527

Dear Mr. Eccli:

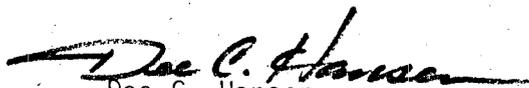

Re: Slurry Impoundment #1

The plans and specifications for the above mentioned dam have been reviewed and approved by this office subject to the following conditions:

1. That changes in the design will be submitted and approved prior to being constructed.
2. That this office be supplied with all material testing data gathered during construction.
3. That this office be notified of the inspectors for the project prior to construction.
4. That this office be supplied with copies of the inspection reports generated during construction.
5. That a reproducible copy of the final "as-constructed" construction drawings be submitted after the project is complete.

If you have any questions or comments, please feel free to contact Mr. Bob Morgan of my staff.

Sincerely,

Dee C. Hansen
Utah State Engineer

RE: Reconstruction of
Slurry Impoundment No.1

Dear Mr. Hansen:

In response to your letter of August 7, 1979 granting approval of plans and specification for reconstruction of Slurry Impoundment No.1, we submit the following information as requested:

1. Inspectors for the project are Rollins, Brown and Gunnell, Inc.
2. A copy of a report to the Mine Safety and Health Administration listing material testing data gathered during construction is enclosed.
3. A reproducible map of the area showing the final "as-constructed" configuration of the facility is enclosed.

Yours truly,

Robert Eccli,
Mine Engineer
