CERTIFIED RETURN RECEIPT REQUESTED
(P402 457 230)

Ms. Jean Semborski
Engineer
U. S. Fuel Company
Hiawatha, Utah 84527

Dear Ms. Semborski:

RE: Final Approval of Abatement Plans for Notice of Violation
N84-4-8-8, #1 of 8, Stability Designs for Miller Creek
Diversion, Hiawatha Complex, ACT/007/011, #3, #4 and #7,
Carbon County, Utah

The Division has received and reviewed U. S. Fuel Company's August 26, 1985 submission concerning finalization of the abatement plans for the Notice of Violation (NOV) referenced above.

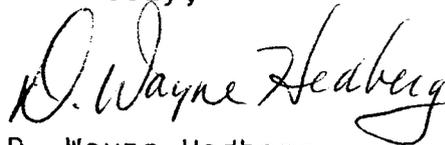

The operator has committed to the Division's request to provide additional and supplemental revegetation for the north bank of the Miller Creek stream diversion. U. S. Fuel Company will seed and hydromulch the 1.1 acre area from the stream crossing on the east to the western extent of the rail line channel sometime between mid-October and November 1, 1985. The seed mix and mulch application will consist of that recommended by the Division in the July 11, 1985 letter to the operator. The designated seedlings will be planted by the operator in the spring of 1986. The operator's previous request to utilize this area as a potential borrow area has been abandoned and as such the company does not plan any additional disturbance of this site.

The plans for abatement of this violation have been determined to be technically adequate and the Division hereby approves this proposal for implementation in accordance with the time frames as discussed previously.

The Division appreciates U. S. Fuel Company's cooperation in resolving this matter. Should you have any questions or additional concerns, please feel free to contact us at your earliest convenience.

Sincerely,

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
